DOMESTIC PRODUCTION SURPRISE (?)

It is our suggestion that the following report be taken with a grain of salt. We felt it should be made known for whatever it is worth and that this industry look forward to whatever might result completely prepared.

There is a belief now current among certain leaders that we may soon see a domestic production surprise as a deterrent to the inflationary prices which have come into being and also as a saviour to all business generally. These men are of the opinion that the Federal government may allow certain manufacturers to return to production of former merchandise for short period of time while the armed services catch up with the shipping problems they face. One of the reasons for this belief is WPB's Limitation Order L-265 which released millions of electronic tubes for civilian use. Parts and supplies and perhaps even completed products of certain manufacturers may also be released on this same basis.

There is no doubt that if this should happen it would act to help curb inflationary prices. A short return to production of former products by those factories that have tools, dies and jigs and are all set to place them into action on short notice plus speedy production with the huge manpower these factories now have available would save all industries from a great many evils for the duration. The conservation programs which have been set up thru voluntary rationing by most industries would mean so much extra assured life for all.

Were the phono manufacturers allowed a short period for production of the merchandise they formerly made it would not only mean in great part the elimination of inflationary prices but would help to revive the used as well as the new equipment markets. The same would be true for all manufacturers of all types of equipment. These leaders believe that this is today more than a possibility for they claim a bottleneck now exists in this country whereby war materials are not getting off the docks due to the fact the manufactories have been far ahead of schedule and that shipping has not been able to keep pace. Thereby the bottleneck is bound to cause a period of inactivity and rather than that, a return to domestic production would help heal a great many sore spots.

If such should occur there is no doubt that one of the industries that would most greatly benefit from this domestic production program would be this industry. Of course it would, overnight, crash prices of much merchandise, but even that would be offset by the knowledge that this industry would be able to continue on in more healthy condition for the duration.

A.O.L.A.C. AND TAXATION

This past week we received a volume of mail from Samuel "Curley" Robinson of A.O.L.A.C. (Associated Operators of Los Angeles County, Inc.) regarding the many letters which he had received from coinmen all over the country answering his appeal to write, phone or wire the congressmen in their sectors who will be on the Ways & Means Committee to listen to tax grievances. Most of the letters addressed to "Curley" were highly complimentary, as they should be.

"Curley" has taken on one of the biggest jobs of his most earnest and energetic career. If his work results in a better understanding in Washington of what, why and how certain machines should be taxed, he should be given all the glory that this industry can heap upon any individual. As yet he seems to be finding it difficult to gain the cooperation of a great many in this industry. This is most probably because many are doing so well that they would rather allow matters to rest as is. Others, who have the type of equipment which will probably have to be flayed by "Curley" and his associates and advisers when they get to Washington to show cause why pinball and counter games should be taxed only $10.00 per year, naturally aren't any too anxious to back him up. Manufacturers, who are busy with war work, are in that stage right this minute where they want to forget all about other worries. (This tax problem will affect the manufacturers in the future anyway, whether it is Samuel "Curley" Robinson or John Q.P. Smith who will come to them again and again at a future date for support to help cure this inequitable taxation.)

"Curley" is doing a job that should be recognized by all for its daring and for its purpose. But, and we bring this big "but" into the picture, for we feel that this is important to all of us as well as to "Curley", should he fail in attaining his goal this time - he will not have failed completely. He has been tremendously responsible

## *"The Coin Machines Merry-Go-Round"*

for helping to awaken the industry to the fact that only by complete, national cooperation can it continue to exist as an industry and only by complete, national amalgamation will its existence be assured and protected in the years to come.

Those who are interested in seeing pinball and counter game taxes reduced to $10. per year should get back of "Curley". As we stated a few issues ago, an effort should be made not to cast reflections upon any other type of equipment while the fight for the $10.00 tax is in progress. All equipment is helping to increase revenue for the national government at a time when the need for revenue is so great.

Whether pinball and counter games mean only a small part of your collections you, too, should get back of the A.O.L.A.C. program for then you will have at least convinced the tax makers that there is someone watching them and watching them closely. One such battle won means much more care on their part in future taxation plans. If pinball and counter games are properly pushed down on the tax scale and if the Arcade Owners Association gain their ends in Washington by a revision of the tax setup for arcades, then all of you have united into a purposeful body for the general future betterment of this industry and for its continued progress.

HONORABLE MENTION

This week The Cash Box takes pleasure in giving Honorable Mention Awards to Ben D. Lazar and J. D. Lazar of B. D. Lazar Company, Pittsburgh, Pa., for the marvelous charitable work they are helping to do which won overnight acclaim for the coin machines industry in the city of Pittsburgh from one of the world's most noted charities when it was announced from the platform the evening of the first meeting of this great charitable organization (embodying 75 smaller charity groups) that the coin machines industry of the City of Pittsburgh was leading in donations.

Honorable Mention Award also goes to Woolf Solomon of Central Ohio Coin Machine Exchange, Inc., Columbus, O., whose efforts in behalf of most worthy causes should never go unsung even tho Woolf himself attempts to keep such matters entirely secretive.

C.M.C.B.

A short report on some of the weekly workings of the CMCB (Coin Machines Credit Bureau) may prove interesting to a great many who as yet haven't felt its existence even tho it is only in embryonic form. More than anything else, at present, CMCB is acting as an "information center". It is answering dozens of questions each week put to it by the subscribers of The Cash Box regarding one firm or another.

A week or so ago we advised our readers regarding a problem which had arisen between a midwestern and an eastern jobbing firm. Not only was this problem efficiently settled to the complete satisfaction of both parties, but it gave both these firms some idea of the extent of the work that can be accomplished by CMCB.

This past week a merchandise jobber sent us a statement past due from another firm. This matter is being handled as diplomatically as possible tho CMCB is not a collection agency. There is a belief that even this will be completely settled and that both parties will be satisfied.

During a quick trip to Pittsburgh and Columbus (also this past week) many questions were asked by people in those cities regarding other firms in this industry. One firm in Columbus had just shipped $3,000.00 worth of machines open account. He asked whether he would have any trouble due to the fact that he had never before dealt with this firm. He was assured there would be no trouble and that the shipment would be picked up as soon as it arrived. (This proved to be the case even prior to our leaving Columbus.)

Much other information was also given out this past week which won some fine compliments. As we stated, tho the CMCB is as yet actually an "information bureau", it is, as such, helping to bring about better understanding among the firms in this industry who have never had business dealingswith each other before. "Somehow", as one of these men wrote us, "it is also bringing about a better understanding and more confidence in our fellow members in this industry. I believe that by just accomplishing this alone the Coin Machines Credit Bureau is already doing a great and good work."

A letter from Haverhill, Mass., also gives an idea of the interest in CMCB. This letter, in part, reads: "I am very much interested and in favor of your Credit Bureau idea because as an old salesboard man I have seen such an organization bring order out of chaos. There are certain features that must be incorporated into it however over and above a firm's mere credit rating. It is most important to find out what his relationship has been with his fellow distributors in adhereing to deals, etc. Naturally there must be a reason for this remark and here it is. In response to an ad in The Cash Box, I contacted a fellow subscriber and by telephone agreed to purchase a machine at a definite price. The subscriber accepted my offer and I mailed a check. The next day I verified the receipt of the check and the advertiser promised me a definite delivery in three days. Today, one week later, I received a letter from him to the effect, "My partner sold the machine to someone else without my knowledge". An obviously lame excuse which was so admitted after an additional phone call today."

Such letters are paving the path for the completion of a thoroly efficient Coin Machines Credit Bureau with an inner, and perhaps even mystical, understanding of this industry. The names of such firms as in the above letter are recorded and filed away for future reference. Gradually, the CMCB by receiving such information from all over the country is becoming the organization this industry wants it to be.

NATIONAL COIN MACHINES BOARD OF TRADE

As we stated a few issues ago in reference to a National Board of Trade for this industry, for which there is growing agitation at this time, and in great part due to the tax situation which arises on July 1, such an organization should come into being (properly sectionalized thruout the country) to handle local as well as national problems.

This past week we received a letter from one of the leaders in this industry from northern California expressing the hope that such an organization will soon be at work. Another letter from Texas suggested that a trial meet be called within the next 30 days at Chicago of all the leaders of this industry from all 48 states and that the plans for a National Coin Machines Board of Trade be there discussed by these men in the hope that this meet will form the nucleus for such an organization.

As is well known at this time a National Coin Machines Board of Trade will have to be segregated into many independent, highly flexible units for the conservation of the whole and be thereby able to perform with the greatest efficiency possible for all concerned. A national headquarters will have to be set up while the drive goes on to help lower excessive taxes as well as cure much misunderstanding of this industry.

Only a National Coin Machines Board of Trade could efficiently and completely handle the problem of Federal taxation. Such an organization would be most logical to present the viewpoint of this industry to any Congressional committee. Such an organization, representative of all the nation's coin machine men, would be better listened to and more highly respected by Washington's politicos. Every industry in this nation is represented by a national group of one type or another in Washington these days. Only because of this fact have many of the country's industries escaped the taxation problems which now face this trade.

The general clamor, now growing louder, for a National Coin Machines Board of Trade is best expressed in a letter received this past week. This letter reads, in part, as follows: "There is now a great deal of attention directed to our business, due primarily to the tax situation, and it is the writer's opinion that now is the ideal time for the forming of the Board of Trade you have recently suggested, provided it is kept in mind that conditions vary in different sections of the country. To be successful such a Board of Trade would of necessity have representatives from all territories. For example: we find conditions in northern California different to a great extent from those in the southern part of the state and Pacific Coast conditions are not the same as those on the East Coast."

All these matters are well understood by the leaders in this industry. The realization that there be a sectionalized set-up meeting at definite periods at national headquarters and constantly in contact with these headquarters is part of the plan for the National Coin Machines Board of Trade. The national headquarters for the organization, just like the national headquarters for the American Legion, would handle only national problems. Local offices would handle local business and even these local offices would also be sectionalized to provide for greater efficiency on their part.

Instead of one part of the country spending its time, money, effort and energy to do something for the industry nationally, the National Coin Machines Board of Trade would do that job and would probably do so more impressively and efficiently for it would have the respect of any body with which it met due to the fact that that body would realize it was meeting with a nationally representative organization and not just a local group.

TEXAS COIN MACHINES BOARD OF TRADE

This past week we were in receipt of a long and inspiring letter from one of our subscribers in Dallas, Texas, who advised that he was planning to get together a nucleus of leaders in his state into a Texas Coin Machines Board of Trade. He is Earl E. Reynolds who has much experience in this state's organization matters as former head of the Texas coin machine operators organization.

Volunteering at this time to create an organization for the future benefit of all Texans, Earl faces one of the biggest jobs he has ever undertaken. His state at this time is enjoying a boom that is unequalled in all its glorious history. Those in this state who are not as yet enjoying open territory may come into the movement he starts first, to help get their section opened up.

But, most important to the industry as a whole, is the fact that here again is a sign of the crying need for this industry to get together for its own protection and welfare, for its own greater future and for the boom of the gigantic post-war era that is sure to come.

Once again in the voluminous void which this industry so easily creates, this small voice cries out to all the leaders in Texas - to help - to create - to assure - to protect - to better - prosper - to progress - with the small effort that is necessary now to start the Texas Coin Machines Board of Trade under the Lone Star Flag.

PRICE PUBLICATION

Again this past week we have been in receipt of many letters asking whether it would not be better for all the industry if present inflationary prices were not to be "openly" published. As our old subscribers know, The Cash Box has been against "open" publication of prices from its very beginning. Why should storekeepers and the general public know what the leaders in this industry are willing to pay for or what they want for all types of equipment. "Is this", as one man asks, "the boommerang that will defeat us at every turn when we ask for some sort of clemency on the part of the tax makers?"

# Odd Coins

By Joe Orleck

A (1945) COPYRIGHTED FEATURE OF "THE CASH BOX" 381 FOURTH AVE., NEW YORK

We took a trip thru some of the arcades on New York's "Great Dimmed White Way" the other evening - and while impressed with the tremendous business being done, were very unfavorably "depressed" with the method of operation in many of them. As expected, Guns were given the best play....but they were set up for "sucker" play. In most every instance, the guns were only some two to four feet from the targets. And the targets were "set" for easy hits. Players would throw in a few coins, then walk away plainly unsatisfied - particularly uniformed men. We know that space is valuable,and that crowds are large and transient, but the arcade owner should be enough of a business man to see that his patrons get a little enjoyment and satisfaction from their spending. But more important, the arcade is under the eye of newspapers and government officials these days, and operators should be careful nothing is done to create adverse criticism. It don't take much to start the ball rolling downward.

CLIFF COOK, Cliff Novelty Co., Miami, Fla. presents a good idea for the improvement of The Cash Box, which we will take advantage of at some later date. Cliff, incidently, is rebuilding a gun and calling it "Cliffized".....DAN WERTZ, Wertz Sales Co., Richmond, Va. offered some music, which didn't take long to dispose of....CARL and BILL HAPTEL, Badger Sales Co., Los Angeles and Milwaukee, still on a buying rampage, grabing up Consoles, slots, phonos, 1-balls and arcade equipment.....OGDEN WHITBECK, The Mohawk Skill Games Co., Schenectady, N.Y. after a long silence, breaks out with an offer of pins and arcade equip.....CARL TRIPPE, Ideal Novelty Co., St. Louis, Mo. brings a flock of pins into the open at nice prices.....A. D. BEARD, The Music Machine Co., Brunswick, Ga. wants to buy music, slots and consoles.

BEN FINE, B. A. Fine Co., Baltimore, Md. visited New York and was more interested in finding a part for his clarinet than he was in the coin machine business. Ben plays this instrument in the Maryland State Guard band....EDDIE SHOTTS, Austin Phonograph Co., Austin, Tex. anxious to buy phonographs and parts.....ED. RAVREBY, Owl Mint Machine Co., Boston, Mass. phones in his ad. ED, JACK and AL offer some very fine slots, and will take music and arcade equipment in trade for them.....BEN and SI LAZAR, B. D. Lazar Co., Pittsburgh, Pa. offer their last 50 Club Bells for sale..... MEYER COHN, Myco, Columbus, O. wants to buy cardboard photomatic frames.....FRANK PAGE, Roanoke Vending Machine Exch., Roanoke, Va. offers pins.

AL SCHLESINGER, Square Deal Amuse. Co., Poughkeepsie, N.Y. returns to his home after a long absence due to ill health.....W. R. BURTT, Wichita, Kan. explains Government Order L-265, "Consumer of Electronic Equipment", which makes it necessary to turn in an exhausted tube for a new one.....CLARENCE SCHOLLE, American Sales & Service Co., Rock Island, Ill. will accept offers for all reconditioned pins.....HARRY ROSENTHAL, Automatic Amusement Co., Pittsburgh, Pa. offers a large selection of pins, arcade equip., consoles, and music with a money back guarantee.....BILL MARMER, Sicking, Inc., Cincinnati, O. still has some of the finest slots available.....H. R. (PERK) PERKINS, Buckley Trading Post, Chicago, Ill. always looking for arcade equip., consoles, slots, music and 1-balls.

MEYER MARCUS, The Markepp Co., Cleveland, O. selling slots, arcade equip., and phonos.....LEO J. FISKE, Fisco Sales Co., Haverhill, Mass. wants slots and Baker's Paces (New). Leo gives The Cash Box a nice plug in a recent letter.....GEO PROCK, Geo. Prock & Co., Dallas, Tex. offers slots.....GEORGE NEBEL, G. N. Vending Co., Columbus, O. selling slots with a full guarantee.....MORRIS GISSER, Cleveland Coin Machine Exchange, Cleveland, O. wants music, slots and arcade equip.....MEYER WOLF, Atlantic City, N.J. has to sell an entire arcade because the manager is going into the service.

MIKE MUNVES, New York City, offers to buy all guns for cash.....MORRIS HANKIN, Hankin Music Co., Atlanta, Ga. selling some of the finest reconditioned cigarette machines, repainted in two-tone effect with new mirros.....MYER FRANK, Philadelphia Coin Machine Co., Philly, offers pins, consoles, slots and music.....GEORGE COLEMAN, Coleman Nov. Co., Rockford, Ill. selling consoles, slots, and music accessories.....WOOLF SOLOMON, Central Ohio Coin Mach. Exch. AT LAST!! A PROVEN PERFECT ANTI-CHEAT COIN CHUTE ATTACHMENT!!

We have perfected attachments to the A.B.T. Coin Chutes on FREE PLAY Pinball machines making it practically impossible to defraud the machines by the use of wires or of "stingers" thru the chute. Operators in San Antonio started with 4 sets of our attachments, placing them on machines in "tough" locations. The results?.....

United Amusement Company reported an increase in revenue and ordered some 90 to 100 additional sets. Southwestern Amusement Company reported a 100% increase in the first location tested and ordered all their machines instantly equipped. H. L. Neill reported, returns from the location first used paid for the cost of installation in a week and ordered sets for all of his machines.

Our comprehensive instruction sheet gives your mechanic full explanations to install our attachments on your coin chutes and he will be able to make such changes in about 25 minutes per chute. (List Price $3.00 Per Complete Attachment Set. But, for this introductory offer we will sell you any amount at only $1.50 per set, Postpaid, Cash with Order.) Send your order today! If still doubtful write for full particulars.

# IMPORTANT

**The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the week; Where only oneprice appears this should be considered lowest price.**

**Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for each week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price for the week, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth $150.00 whereas someone on the East Coast may think it worth but $75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.**

# CODE

**CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.**

**1—Means price went up.**
**2—Means price went down.**
**3—Means this machine just added to list.**
**4—Means prices went up and down same week.**
**5—Means prices remained same as in past week's issue.**
**6—Means no prices quoted for this machine this week.**
**7—Means no prices quoted for this machine for past two weeks.**
**8—Means no prices quoted for this machine for past three weeks.**
**9—Means no prices quoted for this machine for past four weeks or longer.**
